

FOREST HOUSE MEDICAL CENTRE & WARREN LANE SURGERY

Forest House Medical Centre Residents Petition

We write with reference to the 'Save Forest House Medical Centre' petition dated January 2022.

The Practice welcomes the feedback and appreciates that our decision to relocate the services from Forest House Medical Centre to the New Lubbesthorpe Health Centre in Jan 2024, will not be supported by all our registered patients.

We have listened to the concerns raised and have carried out additional and extensive work in looking at our patient profile, transport concerns and access to services.

We are presenting the outcome in the next Forest House Relocation Steering Group meeting which is on Thursday 12th May 2022 at 17:30pm.

If you would like to attend the steering group meeting, please email warrenlane.medicalcentre@nhs.net or you can call the practice on 0116 289 811 to register to attend and share your views further.

We would like to reassure people that all patients who are registered with us, Warren Lane Surgery is not a separate practice. Therefore, the closure of Forest House Medical centre does not require people to de-register and re-register. In addition, the closure of Forest House Medical Centre does not affect any services provided at Warren Lane Surgery and the Warren Lane site will remain open. From 2024 all services operated at the Park Drive site will operate from Warren Lane and New Lubbesthorpe.
